

No good Republicans

While Jerry Buchanan, Michael Bates, and Chris Medlock are from Tulsa, they do not represent the majority of the Tulsa County Republican Party organization nor will many Republicans work with them. They represent the Nazi wing – the pure ambition sect of malicious political infighting that has destroyed Republican elected officials and splintered the party.

Their repeated attacks on Republican Mayor Bill LaFortune helped elect Democrat Mayor Kathy Taylor. Their frequent attacks upon Tulsa County government – all republicans – has led to the recent annexation of the Tulsa fairgrounds by the Tulsa City Council and, what appears to be an overall effort to end county government in favor of a Democrat controlled city bureaucracy.

Fortunately, their media hack, shock jock Michael DelGiorno has been fired from KFAQ 1170 and thus their public platform is significantly reduced as of Monday April 16, 2007.

Buchanan is most guilty of bad judgment in allowing these fruits, flakes, and nuts prominence within the party organization. Please do not elect this spineless panderer to any office. Do not fall for his high-paid political consultant's disingenuous campaign. Republicans of Tulsa County have rejected this unwise leadership and Buchanan's special interest money should not be allowed to hurt Republicans throughout the State of Oklahoma.

I will answer any questions you may have on these fools personally at this convention or you may e-mail david@tulsatoday.com. There are six generations of my family in this state and we have always been Republicans. Please consider the danger pure ambition with bad judgment could do to us all.

Thank you,

David Arnett
