Support or Oppose Creating City Manager Form of Government AFTER Comprehensive Description

Question 4.2: Now that you have been given a more detailed description of the two forms of government, if you were to vote TODAY to create a City Council slash City Manager form of government (also referred to as a Strong City Manager model), wherein much of the power and authority would be shifted to the City Council (including the Mayor) and to a professionally-trained City Manager, would you vote YES or NO for the proposed amendment to the City Charter?

Support or Oppose Super Mayor Model

Question 5.0: If you were asked to vote on a SUPER Mayor Model, would you be inclined to vote YES or NO?

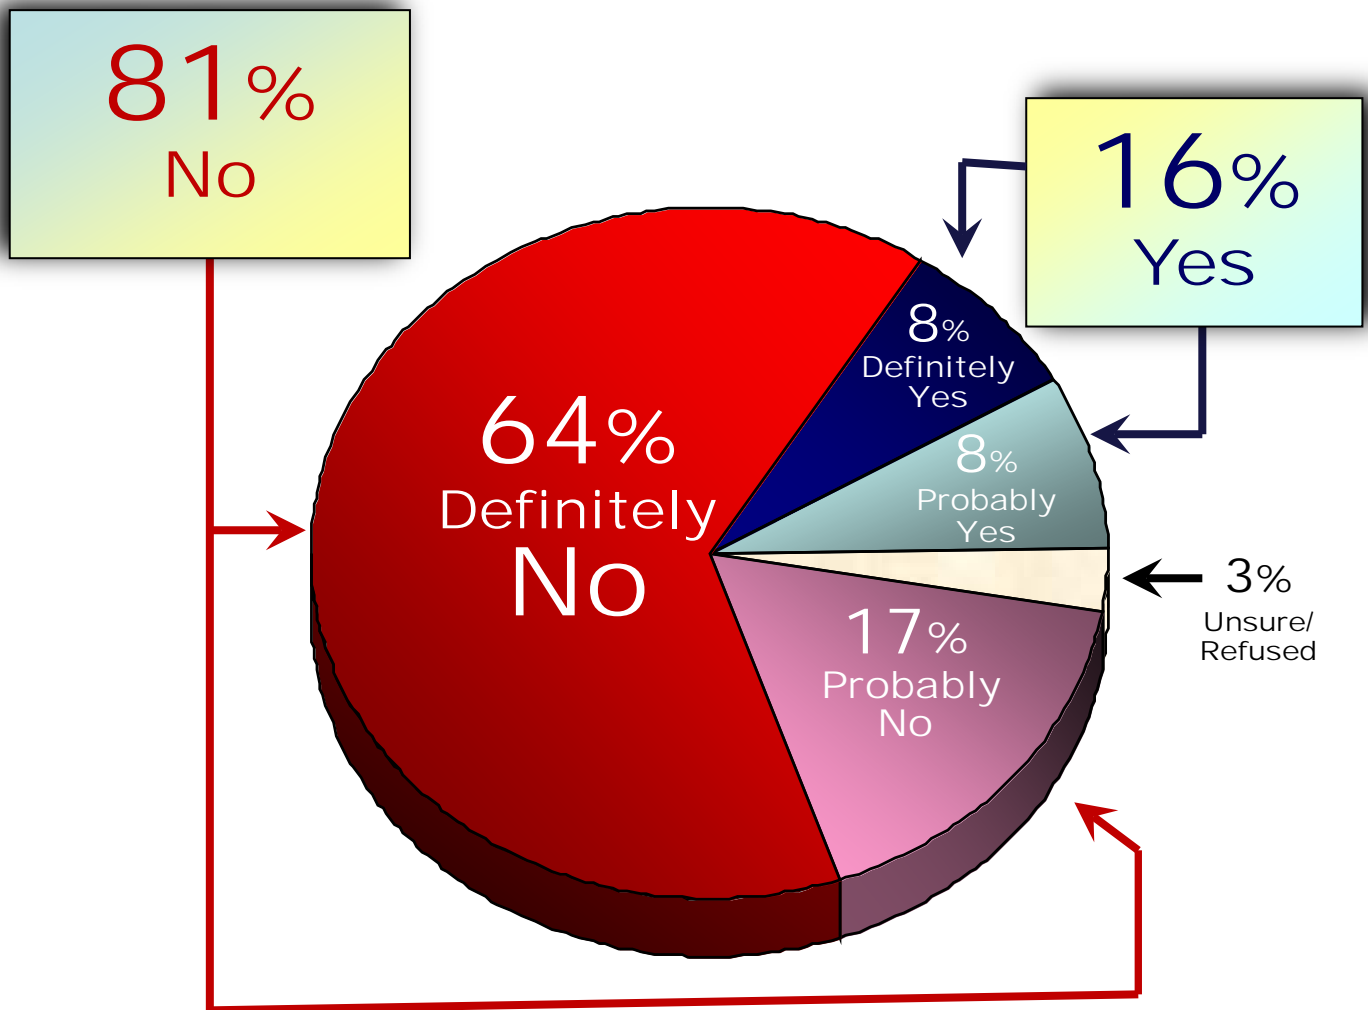

Figure 6

Support or Oppose Creating 'Super Districts'

Question 6.0: As part of the Super Strong Mayor model, three additional seats will be created on City Council; these will be 'at large'...meaning, like the Mayor, each seat will be voted on by ALL voters throughout the entire City. While being elected at-large, each Councilor MUST reside in one of three specific sections of the City; or SUPER DISTRICTS With the addition of the Mayor and 3 new Councilors, City Council will then be comprised of 12 Councilors, plus the Mayor. If such an Initiative were to be placed on the local ballot, today; would you vote YES or NO on the Initiative?

Support or Oppose Making City Elections **NON-PARTISAN**

Question 7.0: Another initiative that will appear on the November 8th ballot calls for making City elections non-partisan. While each candidate for City Council will be permitted to identify himself or herself as a Republican or Democrat; there would be NO PARTY PRIMARY election. Rather, all candidates for each individual district will run against each other; should one candidate secure simple majority support of the local electorate, then there will be NO RUN-OFF. If, on the other hand, none of the candidates secures simple majority support, then (and only then) there will be a run-off between the two top vote-getters. If such an Initiative were to be placed on the local ballot, today; would you vote YES or NO on the Initiative?

Preferred Length of Terms of Office for Council Members

Question 8.0 Should the term of office for Tulsa Councilors be changed to a 4-year term, with half the Council seats being up for election every two years; or, should it remain a 3-year term, with three Councilors being up for re-election each and every year? This change will reduce the number of elections needed in Tulsa; thus, saving the City money.

Preferred Length of **Term Limits** for Mayor and Council Members

Question 9.0 Should an individual be limited to three, four-year terms (or 12 years) as an elected official of Tulsa. In other words, would you likely vote YES or NO on creating Term Limits for the Mayor and members of City Council?

How would you...

Rate the Performance of Mayor Dewey Bartlett

Question 11.0: Dewey Bartlett took office as Mayor of Tulsa in December 2009, approximately 2½ years ago. Using a standard grading scale of A thru F, based upon what you know about his performance, to date, if you were to assign a grade to Mayor Bartlett's performance, what grade would you give him?

Impact on Voting Behavior of Chamber of Commerce War Chest

Question 14.0 Similar to what took place earlier this year in Oklahoma City's Chamber of Commerce...the newly created Tulsa Metro Chamber of Commerce, Political Action Committee, has built a HUGE War Chest intended to influence, indeed CONTROL, the outcome of the 2011 election cycle in Tulsa. Part of this effort involves the Chamber's Political Action Committee donating large sums of money to candidates, as well as funding their own campaigns in support of, or opposing, candidates of choice through independent expenditures. Would learning this through a trusted source make you inclined to: Support a candidate who is endorsed by the Tulsa Chamber of Commerce and/or who accepted large amounts of funding from the Chamber's Political Action Committee, or; Oppose a candidate who is endorsed by the Tulsa Chamber of Commerce and/or who accepted large amounts of funding from the Chamber's Political Action Committee, or; Would this knowledge have NO IMPACT on your decision to SUPPORT or OPPOSE?
