PREAMBLE

We believe individual rights of life, liberty and property come from Laws of Nature and Nature's God and that governments are formed to protect those specific human rights.

We believe the Declaration of Independence and the Constitution of the United States of America together establish the supreme basis of law for the nation and all subsequent judicial rulings must be subject to those foundational documents and intent.

We believe in justice and opportunity for all human life regardless of age, race, creed, sex or disability. We believe the strength of our Constitutional Republic lies with the individual and that each person's dignity, freedom, ability, liberty and responsibility must be honored. Failure by the Federal Government to limit itself to authority specifically found within the Constitution removes the obligation of union from the sovereign states.

We believe Article 1, Section 8 of the Constitution requires Congress to maintain the

value of the currency and, should that value crash, Congress must immediately return the U.S. Dollar to a commodity based standard. We welcome legal immigration and recognize the tremendous benefits new immigrants have contributed to America. We oppose illegal immigration. We believe the federal government has an immediate duty to hold secure our national borders.

We believe the proper role of government is to provide for the people only those critical functions that cannot be performed by individuals or private organizations and that the best government is that which governs least.

We believe that the most effective, responsible and responsive government is closest to the people. State and local governments should be encouraged to address challenges with creativity and without undue federal influence, regulation or restriction.

We reject the European Union model of abdicating national sovereignty to gain economic success. We recognize that the United Nations is failing and in specific cases has degenerated into harmful ineffective bureaucracy that must immediately be reformed or rejected as an agent for world peace. We believe America should continue efforts to extend peace, freedom, individual liberty and human rights throughout the world.

We believe individual initiative in free enterprise provides opportunity, economic growth and prosperity. We oppose socialism in general and specific entitlement programs lacking incentives to grow personal productivity. We believe government must practice fiscal responsibility by reducing spending and the total tax burden on all citizens.

We believe the Republican Party is the best vehicle for translating these ideals into positive and successful principles of government.

FEDERAL GOVERNMENT

1. We the people of these United States call upon the President of the United States and members of United States House of the Representatives and the United States Senate to uphold their

sworn constitutional duties outlined in the United States Constitution.

2. The United States of America should respond to any nation or organized group declaring war on our peaceful citizens by taking that war to them and winning.

3. We support efforts to bring those who commit acts of terror to justice.

4. We welcome legal immigration and recognize the benefits new, legal immigrants contribute to America. We oppose illegal immigration and any form of amnesty for illegal aliens. We believe the federal government has an immediate duty to secure national borders.

5. We call on Congress and the President to make English the official language of the United States.

6. We support civil and criminal sanctions for employers who knowingly hire illegal aliens.

7. We support a Constitutional amendment that would deny U.S. citizenship to any child born in the United States if neither parent nor legal guardian is a legal citizen. In the interim, we support measures that would deny illegal aliens access to Federal entitlements.

8. The second amendment guarantees the right of the people to keep and bear arms shall not be infringed. We support the proposition that all laws currently on the books that infringe upon this right, when the individual has never been convicted of a felony involving a firearm, be repealed.

9. No National Guard personnel shall be required to leave the territory of the United States, except in time of a declared war and/or by an act of Congress.

10. We support a strong national defense and advocate "peace through strength," supported by necessary defense spending. We support the traditional, historical values of our military and affirm that the primary mission of the military is to support and defend the Constitution or the United States of America against all enemies, foreign and domestic.

11. We support improved pay, improved living conditions, increased educational opportunities and timely medical care for service related illnesses for our armed forces and veterans. We propose that Veterans Hospitals abide by the same or better health standards and building codes as public or private hospitals.

12. We oppose the use of U.S. military personal in any military deployment where they would be under the command of The United Nations

13. We demand immediate withdrawal of the United States of America membership from the United Nations and the removal of the United Nations from the United States of America.

14. We demand appointment of only those Supreme Court justices who will apply a strict, Framer's original intent interpretation of the Constitution and who will not look to international Law or other foreign legal concepts to formulate decisions. Judges of the United States or of any State should adjudicate law and not make law.

15. We believe the First Amendment's Establishment Clause was intended to prevent a state-sponsored religion rather than a separation of God from our government. All Americans, whether as private citizens or public officials, should be entitled to acknowledge God. This acknowledgement includes the freedom to display religious symbols in public areas.

16. We support complete freedom of individual citizens to fund political campaigns and political organizations. We also call for the full disclosure (by political entities) of the sources of their funding. We oppose campaign finance reform that inhibits free speech.

17. We support stricter verification of voter eligibility and stricter penalties for voter fraud. We support paper ballots and a full chain of custody record.

18. We support the repeal of the "Motor Voter" law.

19. We support sanctity of life legislation, including the Personhood Amendment.

20. We oppose any continental multi-modal transportation infrastructure which does not include full United States of America sovereignty and full security operations at our national borders.

21. We oppose the formation of a North American Union with Mexico and Canada and any common currency.

22. We reject the United Nations "Agenda 21" program to manage the Earth's people and resources and oppose the adoption of any UN inspired initiatives into the policies or body of law of

the United States of America, including but not limited to:

The Sustainable America policy,

b) Use of sustainable development guidelines by any governmental planning authority,

c) Global Poverty Tax,

d) Cap and Trade Carbon Credit and Sequestration Program,

e) Conventions on the Rights of the Child, Biodiversity, and Discrimination against Women,

f) Law of the Sea Treaty (LOST), and

g) Sustainable Population and consumption and production reduction initiatives

23. We oppose efforts by our government to pressure Israel or any other nation into negotiating with terrorists, including giving up land.

24. We recognize Israel as our greatest ally in the Middle East in the fight against terrorists, and support the presence of our U.S. ambassador in Jerusalem, the capital city of Israel.

29. Except in cases of national security, we oppose foreign aid while we have a national debt.

30. We support policies that protect US allies and maintain US facilities worldwide.

31. We believe foreign terrorists are unlawful combatants and are not entitled to citizen rights under the U.S. Constitution. We believe they should be held in detention facilities such as Guantanamo Bay, not the U.S. Prison Systems, and their cases adjudicated by military tribunals not by U.S. Criminal Courts.

32. We oppose the so called Fairness Doctrine or any scheme to limit, shape, and moderate or censor free speech in the market place of ideas.

The freedom of speech and of the press referred to in the First Amendment to the Constitution of the United States should apply as well to the electronic media, i.e., radio and television. Thus, we oppose any such restrictions in any and all media.

33. We oppose the seizure of control of the census process by the Office of the President and call for it to remain in the Department of Commerce. The purpose of the census is for counting persons only, as described in the US Constitution.

34. We oppose the creation or expansion of any domestic security force that violates or abridges the rights of Americans as defined by the Bill of Rights.

35. We believe in equal rights and opportunity for all. Therefore, we believe "affirmative action" is more harmful than beneficial.

36. We oppose discrimination and reject preferences, quotas, and set-asides, whether in education or the private sector or government.

37. We oppose special pension and health care benefits not afforded to the general public, for elected officials after leaving office. Whereas, we petition Congress and President Obama to repeal sections 1021 and 1022 of the National Defense Authorization Act passed December 2011 and HR 347 passed March 2012, as they are in direct conflict with the Constitution of the United States of America.

38. We oppose treaties on the International Criminal Court, United Nations Convention on the Rights of the Child, Discrimination against Women, Biodiversity and the Law of the Sea.

39. We support the participation of all members of Congress (past, present and future) in the Social Security system with the American people. All funds in the Congressional retirement fund would move flow into the Social Security System.

47. We support the construction of the Keystone XL pipeline.

48. We seek to eliminate funding for Planned Parenthood

49. We support the repeal of the Patriot Act in its entirety. We hereby express our opposition to any form of law that violates our God-given right to our life, liberty and ability to pursue happiness. We include our right to privacy in that right to liberty and strongly disapprove of any violation of these rights that are not approved by a judge and issue a warrant by a judge. We affirm our support of Constitutional adherence to the principals enshrined in the rule of law and the admonition to not give up liberty for security by our founding fathers.

16. We support tort reform and elimination of frivolous lawsuits.

17. We support the permanent extension of the 2003 "Bush Tax Cuts".

18. We believe a business is not too big to fail and should be reorganized or disposed of through bankruptcy proceedings. Businesses or individuals who are in financial difficulty should reorganize and not be given "bail out" money by any government entity.

19. We believe governmental monetary and regulatory intervention in human enterprise

is inefficient, disruptive, drives false demand, misdirects resources, creates dependency, and is repugnant to Free Enterprise and a complete anathema to a Sovereign People.

20. We oppose the Nationalization of State governments and Land and the US Financial, Health Care, Commerce, and International Trade systems.

21. Taxes should not be used to redistribute private income which is legally gained.

22. Management and Labor should deal with each other on equal terms, with no legal advantage given one over the other. All elections by employees should be conducted by secret ballot and intimidation of voters in all elections should be illegal and severely punished.

23. We oppose grants of tax money to any special interest, activist or lobbying group and similar organizations.

23. We urge the Governor and Legislature to support the expansion of the Concealed Carry Law to include an Open Carry provision.

24. We support a moratorium on creation of additional turnpikes in Oklahoma until existing turnpikes in Oklahoma have generated enough toll revenue to repay their original construction costs, are conveyed to state ownership and converted to toll-free roads.

25. Laws prohibiting amnesty, welfare, social security numbers, driver's licenses, and medical care for non-life threatening illnesses for illegal aliens should be adopted and enforced.

2. We support legal protection for the lives of unborn children, and we oppose any bill similar to or such as the Freedom of Choice Act, and oppose taxpayer funding that supports abortion.

3. We support the sanctity of all human life beginning at conception and ending at natural death. We support alternatives to abortion that respect life including adoption. We support the protection of those who cannot defend themselves, including the unborn, the disabled, and the elderly. We believe abortion should not be a solution to an unwanted pregnancy and should be used only to protect against imminent threat to the life of the mother.

4. We support the rights and accompanying responsibility of parents and legal guardians with regard to care, protection and rearing of their children and wards. Parent's rights to their children are superior to any other interest, unless it is adjudicated that those parents are materially unfit. We support strict adherence to the due process of law in cases of alleged abuse.

5. We strongly oppose every form of abuse and neglect. When government becomes involved, there should be strict accountability for the individual's subsequent care, continued safety, and welfare. Diligent oversight of care facilities is crucial to protecting children, the elderly and the handicapped.

6. For the protection of children and the good of families and individuals, we oppose profanity, obscenity, and pornography in all forms and that the current laws prohibiting such be strictly enforced and request that the current laws prohibiting such be strictly enforced.

G. WELFARE

1. We encourage individuals to look to family and personal relationships as well as charitable and faith-based programs to meet their social needs. Government welfare programs should exist solely to provide a safety net for American citizens who are incapable of supporting themselves.

2. All welfare programs should encourage their recipients to accept personal responsibility and work toward self-sufficiency. Those who repeatedly misuse the system or fraudulently misrepresent themselves should forfeit further assistance.

H. PUBLIC HEALTH CARE

4. We oppose housing criminals from other states in Oklahoma prisons without just compensation. 5. We support stronger enforcement of all criminal laws and advocate harsher penalties for those convicted of human trafficking, sex trafficking, and kidnapping, especially involving children, with penalties to include but not limited to the death penalty.

J. MEDICAL ETHICS

1. We support individual choices of broad medical options without government intervention. 4. Hospitals and healthcare professionals should not be forced by the government to perform life terminating medical procedures.

K. EDUCATION

Philosophy

1. We support parents' or legal guardians' choice of schooling whether public, private, or home-based. Therefore, we support a system of tuition tax credits or vouchers free of any governmental regulation or interference. We support the founding and operation of charter schools. We support the constitutional right in Oklahoma for parents or legal guardians, even without a college degree and/or teacher's certificate to home-school their children.
2. We oppose targeted collection by the government of personal information or data on home-schooled students or their families.
3. We support the repeal of 70 O.S. Section 1210.515, which requires home-schooled student's under eighteen years old to take a portion of the PASS tests in order to apply for a driver's license.
4. We support the principle that home-school students should receive equal opportunity to participate in taxpayer-funded extracurricular activities in their school district's public schools.
5. We believe the Oklahoma State Department of Education should uphold and teach the traditional family unit as the foundation of our social structure.
6. We support parents or legal guardians access to any and all records, curriculum, and testing pertaining to their children.
7. While the objective study of philosophy and religion can be beneficial, public schools should not be endorsing or censoring any specific religion or philosophy. We believe that students and teachers should enjoy the right of free exercise of religion including public prayer.
8. We support posting the Ten Commandments and our Nation's motto, "In God We Trust," in all public schools in recognition of our religious heritage.

9. We believe the public school system is for the benefit of the United States and those who can prove legal residence.

10. We believe that the scientific evidence supporting Biblical creation should be included in Oklahoma public schools curricula, and if any evolution theory is taught, that both should receive equal funding, class time, and material. Teachers should have the freedom to cover creation science without fear of intimidation, reprimand, or lack of professional respect.

Curriculum

1. Curricula should include the basics: phonics-based reading, grammar, composition, mathematics, government, history, science, spelling, penmanship, geography and economics. We encourage the teaching of art, music, foreign languages, sports/physical fitness, and the option of using the Bible as history or literature text.
2. Sex education should not be taught in grades lower than sixth grade and must have a parent pre-approval.
3. We believe that schools must teach sexual abstinence as the only safe way to avoid sexually-transmitted diseases, AIDS, and pregnancy.
4. We support the right of parents or legal guardians to personally observe all classroom instruction and activities.
5. We support notification of parents or legal guardians of medical treatment sought by students including dispensing of any pharmaceuticals. We oppose mandatory healthcare in public schools and HPV vaccinations for students and any forced mental health medication.
6. We oppose any curriculum that promotes one-world government, humanism, communism, socialism, global citizenship, and any curriculum originating with UNESCO. We affirm that our citizens, of any race, creed, or culture, are fully American. We support teaching our commonalities as U.S. citizens. We support teaching the intent of our founding fathers, the original founding documents, and the difference between a democracy and a republic.

7. We believe students should be given the opportunity to daily recite the Pledge of Allegiance to the Flag, including the words "under God," and be taught the traditional history and respect for our flag.

8. We believe in high academic standards. Promotion and graduation should be accomplished through specifically predefined standards. We oppose graduation requirements that require mandatory community service or volunteerism. We support a 70% grade average for participation in extracurricular activities and sports in public school.

9. We oppose education programs whose aim are social engineering rather than academics or which lower established standards or alter children's values or beliefs. We therefore oppose federally mandated curricula, including Goals 2000, No Child Left Behind, affective education, School-to-Work or other SCANS-based programs

10. We support the singing of traditional songs and teaching of patriotic literature in grades K-12.

11. We support teaching the basic rules of finance, such as economics, saving, investing, borrowing, balancing a checkbook, and living within a budget.

12. Theories involving evolution and global climate change, specifically, should be taught only on the framework of an unproven theory.

13. We oppose participation by Oklahoma in the Common Core State Standards Initiative (of the National Governors Association Center for Best Practices) because it further transfers control of local schools and their curricula from the local school boards to federal and global social reformers. Therefore, we support the repeal of the Oklahoma Core Curriculum Standards, such as by 2012 House Bill 1714.

14. We support more emphasis on the teaching of American History in the public schools. Students need to know our American Heritage.

15. Keep the teaching of the Pledge of Allegiance, the Star Spangled Banner and the US Constitution in the public schools.

16. We oppose the federal mandate that social studies curriculum be created or approved by the Center for Civic Education.

Administration and Funding

1. We support mandatory extensive background checks of all prospective school employees as well as identification and registration of all campus visitors.
2. We support the Oklahoma Constitution, which limits compulsory education to the ages of 8 through 16 and we oppose mandatory year-round schooling. We oppose mandatory expansion of public school in the area of preschool.
3. We support the right of public school teachers to refuse to join or financially support any organization.
4. To comply with the Tenth Amendment to the U.S. Constitution, we favor elimination and complete defunding of the Federal Department of Education and the transfer of its functions and funding to the states.
5. We support the right of parents or legal guardians to apply for exemptions for their children from school vaccinations requirements for medical reasons, religious reasons, or other reasons of conscience.
6. We support the provision in the Oklahoma Constitution providing for passage of public school bond issues.
7. We support scheduling all educational elections on the same dates as General Elections.
8. We support legislation to require public schools to disclose the percentage of their staff that are members of the OEA/NEA, and provide a copy of the current NEA platform to parents or legal guardians.
9. We support the granting of authority to the Oklahoma Legislature to review any tests that must be administered by Oklahoma Public Schools as a result of State or Federal mandates.
10. We support local school board appointed textbook committees to select the state/district funded textbooks. We favor elimination of the state textbook committee.
11. We oppose a public school subjecting a student or teacher to surveys or questionnaires intended to evaluate the personal beliefs, values or attitudes of the student, the student's parents

or legal guardians, or the teacher, as the case may be.

12. We believe a public school should protect the privacy of any personal information or data collected by the school on a student or his family, and we oppose the transfer or sharing of such information with any party outside the administration or the student's local school district without the consent of a party or legal guardian.

13. While we support professional development for teachers, we believe classes should not be canceled in order for public school employees to attend political conventions or union meetings.

14. We support the removal of Automatic Teacher Tenure. Teacher retention raises and promotions should be based on standards developed by local school boards, with student performance as the key objective.
