

Tulsa County Commission's Vision2 tax scheme

VS.

Owasso's money for Owasso's vision

13 year, 0.6 cent <u>county</u> sales tax	<u>City</u> sales tax, city choice of rate and duration
Owasso gets only \$14 million	Owasso could raise at least \$48 million with no overall tax increase (0.6 cent, 13 year city sales tax when Vision 2025 expires)
\$254 million earmarked to <u>bail out</u> AA, City of Tulsa facilities	<u>No Owasso tax dollars to bail out</u> AA, City of Tulsa facilities
Uncapped corporate-welfare "deal-closing" fund; Owasso council has no say in how it's spent	Owasso voters spend Owasso's money for Owasso's benefit
Owasso's share of extra funds is frozen	Money for Owasso projects grows as Owasso grows
County can veto Owasso projects	Owasso voters have full control over projects
Hastily thrown together list of projects designed for short-term political gain; no strategic planning	Carefully considered, strategic projects based on city's comprehensive plan and capital improvements plan
Almost \$100 million wasted on interest and bond fees	Pay as you go: No money wasted on interest and bond fees
WRONG FOR OWASSO	RIGHT FOR OWASSO

Why are Owasso officials giving up \$34 million that could pay for roads, bridges, public safety, parks, and other city needs?
