

Tulsa County Commission's Vision2 tax scheme

VS.

Bixby's money for Bixby's vision

13 year, 0.6 cent <u>county</u> sales tax	<u>City</u> sales tax, city choice of rate and duration
Bixby gets only \$11 million	Bixby could raise at least \$16 million with no overall tax increase (0.6 cent, 13 year city sales tax when Vision 2025 expires)
\$254 million earmarked to <u>bail out</u> AA, City of Tulsa facilities	<u>No Bixby tax dollars to bail out</u> AA, City of Tulsa facilities
Uncapped corporate-welfare "deal-closing" fund; Bixby council has no say in how it's spent	Bixby voters spend Bixby's money for Bixby's benefit
Bixby's share of extra funds is frozen	Money for Bixby projects grows as Bixby grows
County can veto Bixby projects	Bixby voters have full control over projects
Hastily thrown together list of projects designed for short-term political gain; no strategic planning	Carefully considered, strategic projects based on city's comprehensive plan and capital improvements plan
Almost \$100 million wasted on interest and bond fees	Pay as you go: No money wasted on interest and bond fees
WRONG FOR BIXBY	RIGHT FOR BIXBY

Why are Bixby officials giving up \$5 million that could pay for roads, bridges, public safety, parks, and other city needs?
